PROFESSIONAL SUMMARY

Full-Stack Software Developer with 1+ year of experience building scalable web and mobile apps using Next.js, React.js, React Native, .NET (C#), and Node.js. Actively leverages AI-powered developer tools into daily workflows to accelerate feature development and code quality.

WORK EXPERIENCE

Associate Software Developer | Udaan IT Solutions

June 2025 – Present

- Build and maintain full-stack features across web and mobile using Next.js, React.js, React Native, .NET (C#), AWS and Azure.
- Embedded with the product team at **SlicedHealth**, a US-based healthcare SaaS platform, contributing to insurance claims recovery, processing workflows, and hospital billing features for American healthcare providers.
- Gained hands-on experience working within a product-oriented team structure: collaborating directly with stakeholders, adapting to product roadmaps, and delivering features in a fast-paced SaaS environment.
- Design and optimize scalable REST APIs in .NET (C#) with MySQL and PostgreSQL, achieving 40% faster load times.
- Participate in Agile sprints, translate user stories into production-ready features, conduct internal unit and integration testing before QA handoff.
- Collaborate with design, DevOps, and cross-functional teams to deliver end-to-end features.
- Refactor and debug production systems to improve maintainability, stability, and scalability.
- Built and integrated AI-powered features using APIs from OpenAI and Anthropic, enabling automation, smarter workflows, and enhanced user experiences across web and mobile applications.
- Actively use AI coding assistants (Claude Code, ChatGPT, Cursor) to accelerate development.

Full-Stack Developer Intern | SHDPIXEL – Metamatrix

Jan 2025 – Apr 2025

- Built responsive PWA and e-commerce UIs using Next.js and Tailwind CSS; developed RESTful backend APIs with Node.js and Express.js.
- Delivered onboarding, referral, and rewards features that drove measurable growth in user sign-ups and engagement; built admin dashboards for user and content management.
- Collaborated across design and dev teams from feature design through deployment, gaining full end-to-end product delivery experience.

PROJECTS

PEG: GitHub Issue Estimator

[Live](#) | [GitHub](#)

- AI-powered tool that estimates cost and complexity of GitHub issues using LLM analysis; exports reports in CSV/Markdown/JSON; includes an Explore page for trending open-source repos.

ChatBox: Real-Time Chat Application

[Live](#) | [GitHub](#)

- Real-time messaging platform with Redis and Pusher for instant delivery; friend request system with email verification.

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, C#, HTML

Frontend: React, Next.js, React Native, Tailwind CSS, Redux, Zustand, Recoil, CSS

Backend: Node.js, Express.js, .NET, REST APIs

Databases: MySQL, PostgreSQL, MongoDB, Supabase, Redis

AI Tools & LLMs: Claude Code, ChatGPT, OpenAI API, LLM integration, Prompt Engineering, Cursor AI

Tools: Git, GitHub, Postman, Figma, VS Code

Cloud: AWS, Azure, Docker, GitHub Actions (CI/CD)

EDUCATION

B.Tech in Computer Science and Engineering

2021 – 2025

ITM(SLS) Baroda University, Vadodara, India | CGPA: 7.7 / 10

ACHIEVEMENTS & LEADERSHIP

- Competed in 7+ hackathons · Organized college-wide design competition (100+ participants) · Founded student tech community hosting workshops, coding sessions, and design challenges.
